

RISHIKA KATNA

Data Analyst & Visualization Specialist | FL, USA

Phone: +1 (813) 291-6664 Email: rishika.katna046@gmail.com LinkedIn

Summary

Data analyst and visual storyteller with 2+ years of experience transforming complex financial and operational datasets into compelling narratives, custom visualizations, and presentation-ready data stories that make numbers meaningful for diverse audiences. Designed custom dashboards and infographic-style reporting outputs that reduced reporting preparation time by 35% and helped non-technical leaders clearly understand what was happening in the data. Proficient in Tableau, Power BI, Python, SQL, and Excel, with hands-on training in data visualization theory and practice under Dr. Han Reichgelt at the University of South Florida's Muma College of Business. Passionate about data-anchored storytelling, equity-focused research, and the power of well-designed visuals to drive community understanding and action. MS in Artificial Intelligence and Business Analytics, University of South Florida.

Skills

Data Visualization and Storytelling: Custom Data Visualization Design, Infographic and Explainer Diagram Creation, Presentation-Ready Visual Development, Data Narrative Construction, Executive and Non-technical Audience Communication, Tableau, Power BI (DAX, Power Query), Data-anchored Storytelling

Research and Analysis: Quantitative Data Analysis, Economic Data Analysis, Survey Data Analysis, Statistical Analysis, Trend Identification, AI-powered Forecasting, Market and Industry Research, Large Dataset Interpretation

Tools and Programming: Python (Pandas, NumPy, Automation Scripts), SQL (CTEs, Window Functions, Complex Joins), Excel (Advanced Formulas, Pivot Tables, Charts, Macros), Canva, PowerPoint (Executive Presentation Design)

Content and Communication: Written Report and Summary Development, Data-driven Article Support, Visual Metaphor Application, Complexity Reduction for General Audiences, Cross-functional Research Partnership

AI and Emerging Tools: AI-assisted Analytics, GitHub Copilot, Agentic AI Concepts, Automated Workflow Development, Data Tool Prototyping

Experience

Data Analyst

Oct 2022 – Jul 2024

Cred

Remote, India

- Translated complex financial and operational data from a 2M+ user fintech platform into clear visual stories using Tableau, Power BI, and Python, consistently asking what story the data was telling and designing custom visualizations that made insights immediately understandable for non-technical audiences.
- Designed custom data visualizations beyond standard charts, creating infographic-style explainer diagrams and presentation-ready visuals that simplified complex financial metrics for executive and leadership audiences, reducing reporting preparation time by 35%.
- Conducted economic and operational data analysis to identify trends, gaps, and community-level patterns, synthesizing findings into structured data narratives that helped leaders understand what was happening beneath the numbers without needing technical context.
- Analyzed survey and qualitative data alongside quantitative financial datasets, translating disaggregated community-level findings into visual formats that elevated individual voices and clarified priorities for diverse audiences across 12 concurrent projects.
- Built AI-assisted analytical workflows and forecasting models using Python and Scikit-learn that supported data-driven decision-making and scenario analysis, demonstrating practical experience applying AI tools to real research and analytical problems.

- Collaborated with analysts, researchers, and cross-functional teams to bring data insights to life, partnering across 12 concurrent delivery cycles to produce compelling visual outputs that informed 8 high-stakes decisions.
- Automated 12 recurring data processing workflows using Python scripting, recovering 35% of analyst hours weekly and reinvesting that capacity into higher-value storytelling, visualization design, and research analysis work.

Education

University of South Florida

Tampa, FL

Master of Science, Artificial Intelligence and Business Analytics

Gokaraju Rangaraju Institute of Engineering and Technology

Hyderabad, India

Bachelor of Technology, Computer Science and Engineering
